

POWER SUPPLY : 85-264VAC → 24VDC 4.2A

- ✓ A compact aluminum unit (IP-66) that integrates Power Supply.
- ✓ Energy Independence in the Field, It allows delivering stable 24V power to remote points where only general electrical power is available, protecting sensitive communication equipment.
- ✓ Environmental protection, the waterproof casing and the cable glands prevent moisture and dust from getting in, allowing the system to be installed outdoors or in harsh industrial areas.
- ✓ Sufficient Load Capacity, with 4.2A from the power supply provides the necessary power to keep routers, cell phones, compact switches, and multiple current or vibration sensor loops running at the same time.

PREDICTIVE AND PROCESS MONITORING SYSTEM

BoxAlum_ALI_MV26

POWER 85-264 VAC / 0-24V
(2 OUTPUTS)

M.V Industrial Group

Via La Spezia, 218 (43126) Parma Tel. 0521-573327

MODEL:

BoxAlum_ALI_MV26

Components

1. Aluminum Box (IP-66)
2. Fuse terminal blocks
3. Power Supply
4. Fuse terminal blocks
5. 1 Power supply cable gland input
6. Vent valve
7. 2 Power supply cable gland output
