EXPLOSION PROOF CELLULAR ROUTER AND ACCESS POINT

The Solexy SWA/SWS R** is a compact, cost-effective and secure industrial 4G/LTE and 5G Red Cap router for installation in harsh environments and hazardous locations. It is used to provide connection through a WiFi hotspot or ethernet port based on the cellular network. External N type or SMA/RP-SMA antenna connectors make it possible to connect desired antennas and easily find the best signal location.

SWA/SWSR** Industrial routers have industry leading security features and widely used for 4G/5G backup, Remote Connection, Out-of-Band Management, Advanced VPN and tunneling services in IoT networking solutions.

With Solexy's SWA and SWS enclosures and their rugged construction combined with Atex, IECEx and North America certificates, Solexy offers a wireless device solution for installation in classified Ex areas (gas, dust and mining) and harsh environments, as zone 1, class 1, div 1.
